

## Mixing Instructions For surpHace pHresh **CONCENTRATE** Using a 55 gallon drum container

- Step 1** - Add water to a clean 55 gallon drum to approximately 1/3 filled level
- Step 2** - Transfer 44.6 pounds (22.27 kilograms or 5 gallons) surpHace pHresh **CONCENTRATE** into clean container. Pour the contents into the clean 1/3 filled 55 gallon drum or tank.
- Step 3** - Insert the mixing unit as shown below, making sure the induction mixer is below the surface of the liquid (this will minimize foaming when adding the additional water used for mixing to the drum or tank).
- Step 4** - With the shut-off valve in the OFF position, attach the water supply to the mixing unit, and then turn the valve to the ON position until the drum is full. If using a tank, meter in 50 gallons of water for every 5 gallon of surpHace pHresh **CONCENTRATE**. (Be careful to keep the mixing unit under the surface of the liquid level in the drum to minimize foam development.)

**Warning:** Read all Labels and Material Safety Data Sheet before handling, mixing, or use.

## Mixing Nozzle Parts List

Parts Numbers listed may be found in the  
**McMaster-Carr Supply Company Catalog**  
 or on the web at:  
<http://www.mcmaster.com>

Parts List

Quantity	Part Number	Description
1	8328K12	Mixing Nozzle, 3/8" Npt Male, 2-1/16" Diameter X 4" Length
1	1901K32	Chemical-resistant PvdF Tube Fitting, Adapter For 3/8" Tube Od X 3/8" Nptf Female Pipe
1	5392K374	High-temp White Polypropylene Tubing, 1/4" id, 3/8" Od, 1/16" Wall Thk
2	5562K141	Black Uv-resistant Polypropylene Tube Fitting, Adapter For 3/8" Tube Od X 3/8" Nptf Male Pipe
1	45975K56	Pvc Miniature Ball Valve, Right Angle, 3/8" Npt Female X 3/8" Npt Female
1	1901K27	Chemical-resistant PvdF Tube Fitting, Adapter For 3/8" Tube Od X 1/2" Nptf Male Pipe
1	70815T43	Garden Hose-to-pipe Brass Swivel Connector, 3/4" female Garden Hose, 1/2" npt Female Connections
